Naval. - The U. S. Surveying Steamer Tuscarora Com. Bellimap, arrived on the 2d, twenty-eight days from San Diego. She is of 726 tons burthen, an carries six guna. Reports having encountered bad weather on the passage hither, with heavy wester-ly swells, and lay-to for five and a half days. She is engaged in anywying the ocean bed for the teleundings, the despest water being 2045 fathoms From the meager information we have been able to gather we judge that her official report will be very esting and encouraging to those engaged in the cable venture. After leaving San Diego, the soundings rapidly increased to eleven hundred fatherine mountain range was met, m they decreased to merely pothing, not a very out distance from shore. After leaving the sul bend to be very level, so much so" that a railway rain could be run over it," till within seventy mi wall, where from a depth of about 3000 fath ours, the soundings rapidly decreased. This report Brooks, in the schooner Fennimore Cooper, in 1860.

NOTES OF THE WEEK.

The royal remains will lie in state at the Pal e, from ten o'clock till 2 P. M. to-day. The steamer Kilaues, which has been d ed in port since Monday, will probably leave fo

Kons this morning.

Mr. H. H. Hall, the proprietor of the Austran line is expected in the steamer Macgregor fro We are requested by the officers of H. B. M p Tenedos to state that the ball which was to take place on board on Thursday next, will be pos

ned till further notice, on account of the King's BELEASED .- T. L. Harley, who about a yes since was tried for embezzlement, and sentenced to the State prison, was released a few days since, and

eft yesterday for Sydney. The ship Intrepid, which arrived on the le om Panama, was reported to have contagious discase on board, but it is said to be fever and ague. The ship sails to-day or to-morrow for Enderbu and. She is at anchor outside

It is quite probable that on the arrival of stral Pennock at San Francisco Jan. 3d, the dessation of the Kenrsarge, which had been ordere to proceed to Honolulu to relieve the Saranac, wa hanged. The first vessel from that quarter will robably be the mail steamer Macgregor, due here arly Monday morning next.

CRICKET.—The match played on Saturday last be ween eleven officers of the Tenedos, and eleve onolulu players, was won by the latter by abou 0 runs. There was some very good playing on bo sides, but the naval gentlemen had evidently been out of practice too long to be an even match for the Hopolulu eleven.

A Lose Tair.-The schooner Paughi returns om Hilo on Thursday last, having been absent fift; ays. The detention was at Hilo, where the north rly winds accompanied with heavy surf, prevente er taking on board cargo. During the winte conths, coasting captains have to be specially can-lous not only on the Hawaii coast, but around all be islands of this group.

The U. S. surviving ship Portsmouth, Capt errett, returned on the 2d inst., from a surveying uise to the islands southwest of this group. Du ng her voyage, she has surveyed the ocean from the ongitude of Honolulu to 170 west, as far south as the ne, and visited Palmyra, Washington, Fanning's od Christmas islanda, surveying each, and sailing, per the location of several reputed islands.

The carriage-house in rear of the Rev. Mr car's residence was set on fire on Monday abou 2 r. st., by children playing with matches, and was sumed. Mr. Frear burned his hands quite seri sly in efforts to extinguish the fire. The engine were promptly on the ground, and rendered good ervice in preventing the fire from spreading to the calidings adjacent.

THE REV. G. B. BACON.-By the Comet arrive the Rev. G. B. Bacon and family, from Orange, New crsey. Feeling the need of relaxation from the severe pressure of pulpit and parochial cares, he has ound his way to our islands, where he proposes to end a few weeks. We can assure him a most cor lial welcome, and if more churches in America would send their pastors to this part of the worl stead of Europe, we think these tired, wearing and overworked laborers would return rejuvenate and refreshed. Mr. Bacon says, he is glad to com to a part of the world where there is no daily morn ing paper or telegraph. Now we can accomm

HIS MAJESTY'S BIRTHDAY-January Sist-was ob rved as a boliday, and beside the firemen's parade was the occasion of considerable feasting amo the natives. Several picules were held, among then one at Mr. J. T. Waterbouse's attractive grounds in Nunanu Valley, where several hundred guests asabled to remember the birth-day of one of hi and children, which occurred on the auniversar of the King's birth. Three salutes were fired from Punchbowl battery, at sunrise, noon and sunset The noon salute was responded to by H. B. Majesty's corvette Tenedos, lying in port.

THE MAIL STEAMER -MIKADO-IS NOW hour! ooked for from Sydney, and after remaining in po about thirty hours, will proceed on to San Francisc The return steamer, Macgregor, from San Francisco will be due early on Monday, and after remaining i ort a few hours, will leave for Sydney. It won e a greater accomodation to our business men it he San Francisco steamer could arrive here first, a as to allow prompt replies to correspondence. it is, replies must be sent by sailing vessels, or

The Parade

Of the Fire Department on Saturday last took dace according to the published programme While the companies were assembled at the bel ower, preparatory to the start, Chief Enginee Hassinger stepped forward and called the attention of all to a little ceremony which had been trusted to him to perform. He then presente each of three members of Mechanic Engin supany who had been connected with it nce its organization, a gold souvenir, the work of Mr. Eckhardt, which had been ordered for the easion by the company. These proneer memwere Wm. Wright, Rich. Gilliland, and Wm. Adams, who for twenty-one years had aithfully served as firemen in this company. Mr. seinger's remarks were very appropriate, refering in a touching manner to their early com ades, who had gone-some to the other islands. ne to foreign lands, and some to "the bourt m which there is no return." The medal is old arm, with the figure "2" connected with i by a chain, and is intended to be worn on parad the procession followed the route already an nies, three hose carts, and one Hook and Lader apparatus. Besides the band, which heade The department did not turn out in its full force crated with bouquets and banners, the whol making a showy exhibition as it moved through the streets. Immediately after the parade, the rious companies partook of cold collations at their rooms, excepting No. 4, which had pre-pared a more elaborate feast, in its hall, to which a number of guests were invited, and spec and toasts were exchanged. The parade reflect-ed credit on the department, which is kept in an efficient condition. Considering its size, there eat condition. Considering its size, the are few cities possessed of a more service fire department than Honolulu.

Monastir, a city of about 30,000 inhabitants, situated about 400 miles went of Constantinople, is to be the seat of a new minsion station of the American Board in Maccelonia. Nearly one-half of the popula-tion of Monastir are nominal Christians. The Election

Took place on Monday last, the 2d inst., the court-house being, as on former occasions, the only place of voting in the city. Two ballot boxes were provided, to facilitate the voting, and the Election was conducted, so far as came unde our observation, with fairness and good order. There was less excitement and speech-making than on some previous elections, when partisa spirit ran high. On this occasion there was really no political question to excite discussion and it was merely a contest of personal influence and popularity with the masses, which resulted in the return of four native representatives from Honolulu. Three more popular foreign candidates than Messrs. Jones, Carter and Sheldon were supposed to be, could not have been named and yet the result shows that they were lacking in the energy, tact and personal influence possessed by some of their rivals. Probably underlying all other influences, which resulted in their defeat. was a growing distrust of foreigners, and we should not be surprised to learn that this distrust has influenced the elections throughout the group resulting in the choice of a smaller number of toreigners than in any previous legislature. The tollowing is the result of the election in this city. were 1336 votes cast, for 28 candidates The highest number cast for any one cadidate was 983, and the smallest 1 vote. The various candidates received the following votes:

The first four named in the above are chose In Koolsulos, Mr. John Cummins has been I, having had a majority of 19 votes over G. B. Kamai and 36 votes over C. H. Judd. In the district of Ewa and Waianae, Mr. J.

Komoikeehoehu has been elected.

Three Days Later News.

By the bark Camden, 23 day from Port Townsend, and the courtesy of Capt. Robinson, through Mesers H. Hackfeld & Co., we have a few days later news

On the 3d of January, the Spanish Cortes rejected President Castellar by a majority of 120 votes. No one was chosen in his place, and General Pavia took possession of the Palace of the Cortes, guarding the same with fourteen thousand troops. Great excite-

A dispatch from Penang states that the Atchenese war is over. The Dutch commander has received proposals from the Sultan, and negotiations for a treaty of peace are in progress.

A report was current in Boston Dec. 31st, that the U. S. ship Franklin had been lost at sea with all on beard.

Advices from Cape Coast Castle to Dec. 15th state that the Ashantees had been driven across the river Prah, in great disorder, and that Gen. Woolsley was in pursuit. Everything was ready for an advance. The siege of Cartagens, Spain, still continued on the 2d of January. The powder magazine had ex-ploded, causing great damage.

AT SHA WITH AN INSANE CAPTAIN,-The Liverpoo At Sea with an Issame Captain.—The Liverpool Mercury of November 20th, gives an account of a tertible affair occurring alses, from which we condense the following: The River Eden, a vessel of about 500 tons, hailing from Liverpool, left London October 15th for Valparaiso, having on board a general cargo made up in a considerable degree of combustibles, and including 150 tens of gunpowder. About three weeks after leaving port, the captain, whose name was Bowden, manifested signs of insanity, the symptoms rapidly increasing, and declaring his intention of blowidly increasing, and declaring his intention of blow ing up the vessel. One night, after having been per-suaded to retire from the deek, where he had been act-ing in a very excited manner, he appears to have sating in a very excited manner, he appears to have sat-urated everything in his cabin with paraffine oil and fired it. The mate on entering the cabin was struck on the head by a shot from the captain's revolver, but was not seriously injured. The men of course found it impossible to extinguish the fiames, and the danger of an explosion of powder was imminent. The boat was therefore got out, and the captain being disabled by a blow on the arm from a handspike, was disabled by a blow on the arm from a handspike, was with considerable difficulty put on board, the crew abandoned the doomed vessel and rowed away as rapidly as possible, having had no time to secure either extra clothing or provisions. At day break the vessel blew up. Several hours afterward the boat was fortunately picked up by the Juanita, Capt. Harlock, of North Shields, and the poor fellows, 17 in number, rescued from a dreadful fate. It was found necessary to put Captain Bowden in irons. His legs were lashed to the deek, and an awning put over him for protection, but one day, he contrived to evade the watch ut one day, he contrived to evade the wat set over him, and working his ankles free, jumped overboard. The crew was transferred from the Junthe steamer Aurora, which carried them to Bahia, whence they were sent to England.

A PERILOUS VOYAGE .- An extraordinary feat of seamanship is recorded of the captain and officers of the British ship Mindora, which lately arrived at Lon-don from San Francisco, after a tempestuous voyage, during which she lost her radder and stearing gear, and lay at the mercy of winds and waves for twenty-three days. The Mindora left San Francisco in May, with a cargo of 1,300 tons of wheat for Falmouth. On the a earge of 1,500 tons of wheat for faimouth. On the 23d of July, in a heavy gale, her rudder was carried away. The vessel was at that time in the vicinity of Cape Horn, and came in for the full force of the storms which prevailed in that region. She was driv-en about entirely at the mercy of the wind, all efforts to guide her course being ineffectual; and in her dam-aged and crippled condition, fears were constantly entertained less she should founder. By skillful seamanship, however, she was kept affeat, and the con struction of a jury rudder and false stern post wa proceeded with as quickly as possible. A rudder wa ultimately made out of several of the spars, but, a with all the chains and gear attached, it weighes about two tons and a half, great difficulty was experi enced in getting it properly shipped, the first attemp nearly resulting in the staving of the ship's side owing to the heavy sea. At last, after twenty-three days of anxiety, the jury rudder was successful shipped, being held in its place by stream chains at topsail sheets, and the rossel was able to resume he course for home, reaching Falmouth on the 3d November. During the period that the Mindora was without rudder, she was driven some 500 miles out of her course. After the jury rudder had been brough into use, her progress was very satisfactory, and cone occasion, a distance of 180 miles was run in day. The courage and perseverance of the officer of the ship, under the trying circumstances in which they were placed, and their skill in navigating the very

BEFORE HARTWELL AND WIDEMANN, J.J. In the matter of the Estate of Kualii, decease intestate. Appeal from Widemann, J.

IN PROBATE. The intestate left a husband, and as kindred, n uncle and cousin on her mother's side, and a asin of her father. The estate consists of land

sherited from her father. R. H. Stanley for the father's cousin, Kihei. S. B. Dole for the intestate's uncle, Kaoliko. L. McCully for the intestate's cousin, Leiwan

HARTWELL, J. : The statutory course of descent of real and peronal property in this kingdom is as follows, viz 1. To lineal descendants per capita, if of the

same degree, otherwise, per stirpes. 2. To widow (or husband) one half, and parnts, one half, 3. To widow (or husband) one half, to his (o her) brothers and sisters by right of representa-tion, one half.

4. To widow (or husband) one half, to brothers and sisters of his (or her) father and mother and their children and heirs by right of represe ation, one balf.

5. To brothers and sisters of father and mother and their children and heirs by right of represenation, in case of ancestral estates from eith parent, preferring the brothers and sisters of the parent to the others.

6. To widow or hasband if no kindred. 7. To the Hawaiian Government if there are no kindred.

8. The whole and half blood if of equal degree oberit equally, but those not of the ancestor' lood are excluded if the estate came to the inestate by descent, gift or devise from his ances-

The statutes provide for the ascent of property no further than the parents and their brothers and sisters, except in case of half blood and ancestral

If the estate came from either parent, the brothers and sisters of that parent shall be preferred to the others. This preference extends no farther than the children and heirs by right of representation, of such brothers and sisters, as is vident from the preceding clause in the same section. The father's coasin is neither his brother nor brother's or sister's child or heir by right of epresentation. He is of the fifth degree of kinfred, while the intestate's uncle and cousin are in the third and fourth degrees. He has no inheriting capacity, and therefore the estate must go one half to the husband, one fourth to the in estate's uncle, and one fourth to his cousin.

A movement in the direction of Christianity is pre ailing among the Bhambhis, a branch of the weave class in Rajputana, India, For a year, one who village has seemed to be just on the verge of embracing Christianity. Several have already joined th Church, and at their request Christian worship ha een conducted in the village every evening. A sim ilar movement is reported among the Dheds, a low aste in Gerjerat. Almost the whole of the Dhed popul lation seem desirous of becoming Christians. In the region occupied by the American Arout Mission in the Madras Presidency tw.nty-four villages have joined themselves to the Christian community within two years. Reports of a similar tenor are received from several other districts.

> DR. J. COLLIS BROWNE'S CHLORODYNE IS THE ORIGINAL AND ONLY GENUINE.

THE PUBLIC ARE CAUTIONED AGAINST the mounded statements frequently made, "that the composition of CHLRODYNE is known to Chemists and the Medical profession." The fast is, Chlorodyne was discovered and invented by Dr. J. COLLIS BROWNE (ex Army Medical Staff), and so named by him, and it has baffled all attempts at smalysis by the first Chemists of the day. The method and secret of the preparation have never been published. It is obvious, therefore, that anything sold under the name, save Dr. J. COLLIS BROWNE'S CHLORODYNE, is a spurious imitation.

CADTION.—Vice Chanceller Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyna.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, colins the system, reviewes the devanged functions, and eliminates healthy action of the secretics of the body, without creating, any of those unpiesuant results attending the use of optim. Oil and young may take it at all hours and times when requisite. Thousands of persons teatify to its marvellous good effects and sunderful curse, while medical men exité its virtues none extendity, using it is great quantities in the following diseases:—Cholera, Dyssolery, Bearrham, Colica, Oughe, Asthem, Rheumatian, Neuralgia, Whooping Gough, Cramp Hystoria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

Tanned Goat and Sheep Skins CONSTANTLY ON HAND and for Sale, WAIMEA TANNERY, C. NOTLEY, Prop'r A. S. CLEGHORN & CO., Agents.

A LOT OF S ACRES OF LAND, WITH A good NEW DWELLING HOUSE and KITCHEN attached. A frontage of about 550 feet on Bereinnia Street and 975 feet on Pumahou Avenue. Near the house is a well yielding abundance of never failing fresh water, with a Windmill attached. The prespect seaward and inland is unsurpassed in the suburbs of Honolulu. The place may be sold as a whole or in lots to soil purchasers. For further information inquire of S. B. DOLE.

The Right Hun. Earl Russell communicated to the C-lagge of Physicians, and J. T. Bavenport, that he had received in formation to the effect that the outr remedy of any service it holers was CHLORODYNE.—See Lenest Dec. 31, 1864. Dr. Lowe, Medical Missionary in India, reports (Bec. 1804. Int. in nearly every case of Chelera in which Br. J. COLLIS RROWNE'S CHLORODYNE was administered, the patient Boundary Commissioner's Notice. NOTICE IS HEREBY GIVEN THAT ON Extract from Mulicul Tymez, Jun 12, 1866.—" Chiaradyna is prescribed by severa of orthodox modical prestitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place."

Extract from the General Board at Health, Landon, as to ta efficacy in Coolera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly arge the necessity of adopting it in all cases."

CAUTION,—Note granine without the words "Dr. J. COLLIS REOWNE" on the Government Bases, Overwhalm-be modified featiment accommend so only better
